## De Minimis Statement

### Eligibility to Receive Aid Under the De Minimis Exemption

This form is used to determine the value of any relevant aid previously received by your company, in order to ascertain whether there is scope to provide further aid under the De Minimis exemption. In order to avoid public funding distorting competition within the European Common Market the European Commission regulates the level of assistance which the public sector can provide to businesses ("the State Aid rules"). Please note carefully the requirements needed to comply with the rules.

It is proposed that the assistance provided will comply with State Aid rules since it will be provided in line with the De Minimis exemption. Under this exemption a single undertaking may receive up to the limit of €200,000 of De Minimis aid from the member state within which it does business and which provides the aid over any period of three fiscal years.

The maximum value of the aid you can receive under this initiative is £1235.72 which at the current European conversion rate, is €1467.90\*. You may need to declare this amount to any other UK public body intending to provide aid, in addition to any audit or other investigation, and who requests information on how much De Minimis aid your business has received. Therefore, we strongly recommend that you maintain a record of this assistance for future reference, current legislation states you should retain this form for 3 years from when it is dated and be able to produce it on request by the UK public authorities or the European Commission. If you are in any doubt as to whether previous assistance received would constitute De Minimis assistance, please raise your concerns as soon as possible.

*\*Conversion rate is correct on date of issue – February 2020*
